INSPIRED

Summer 2019: Interstellar Pharmacy
Darmstadt, Germany

TECHNISCHE
UNIVERSITÄT
DARMSTADT

Darmstadt, as home to the European Space Operations Centre (ESOC), the main mission control hub of the European Space Agency (ESA), is the continent's gateway to the universe. INSPIRED, as the 'mission control centre' of the International Project Week for Interdisciplinary Research-Oriented Digital Learning, would like to invite you to look to the stars as well.

As part of a dynamic team of young researchers and (bio-)engineers, you will be tasked with a manufacture design of a functional, sustainable, and efficient

Interstellar Pharmacy

a bio-reactor generating specialized nutrients and therapeutics
in extreme conditions of outer-space stations
and off-world colonies of the future.

Starting April 1, weekly packages of tailored e-Learning content will ensure you arrive prepared for the task ahead

June 24 – July 12

Darmstadt, Germany

- Join an international and interdisciplinary team of biotech pioneers and put your expertise and creativity to the test
- Discover our learning factories and experiment in our state-of-the-art labs
- Visit leading German companies and witness first-hand industrial applications of science-based solutions
- Enjoy an immersive experience in German research, industry, and culture
- Connect and collaborate with peers from all over the world

REQUIREMENTS

- Enrolled in a university undergraduate or graduate program
- General interest in Engineering & Life Sciences and studying abroad

TRANSFER OF CREDITS

- 6 CP ECTS (3 US/Canadian semester credit hours)

PROGRAM FEE

- Estimated costs
- € 1,300

Includes housing & meals, local transportation, insurance, and student services
(does not include travel expenses)
